

## 1. 2014 Census of Non-Serviced Accommodation Stock

In 2014 VisitEngland commissioned an update of the accommodation stock census, undertaken in 2012. In contrast to many other countries, there is no compulsory registration scheme for accommodation establishments in England. This census has been undertaken to gain the best possible measure of accommodation stock across the Country.

Various resources were used to compile this information, including VisitEngland's database of accommodation, regional tourism agencies and data supplied from commercial organisations. Where gaps in the databases occurred, including number of rooms and bedspaces, an extensive search of the website was undertaken to populate the missing data fields. This has resulted in an increase in the number of bedrooms, bedspaces and units across England and subsequently, across the 9 English Regions.

Table 1 details the breakdown of non-serviced accommodation establishment across the Country.
