### 1 Anglesey Abbey Gardens, Cambridgeshire

Anglesey Abbey Gardens, originally created by Lord Fairhaven in the 1930s to inspire and surprise his visitors, are full of spectacular colour and fragrance throughout the year. The gardens are set in the grounds of the Jacobean style abbey and working Lode Mill, now looked after by the National Trust. Take a stroll through the avenues of trees, discover the many statues and enjoy the endless lawns and wildflower meadows. While Lode Mill has been in operation for a couple of centuries, there has been a mill on the site for over one thousand years, as noted in the Domesday Book. There are two garden group tours currently available:

- The visionary's garden – getting to know the garden through the eyes of the gardeners.
- Sculpture tour – Lord Fairhaven bought over 100 pieces of garden statuary, now set against the backdrop of Anglesey's gardens. Experts will guide you round the garden, unearthing fascinating stories about the collection.

Group tours last approximately 90 minutes and are available when booked in advance for up to 25 people. Coaches can park just 50 yards from the Abbey and an on-board coach welcome is available.
